IF YOU WERE BUYING EYES

What would you get?
The best of course. Follow the same plan in buying glasses.
Have them fitted properly, then buy a frame or mounting such as you can afford.
Fitting glasses for children is my specialty. No drugs. No danger.
Satisfaction guaranteed.

BERT K. KERR, Optometrist

31 E. Santa Clara St. San Jose.
Formerly the PRATT-KERR OPTICAL CO.

Found—A sum of money. Enquire at the Press Office.

Found—A ladies fur. Owner may have by describing and paying for this notice. Call at Press Office.

J. H. Neff has yet a good lot of apricot trees at \$18 per hundred. Book your orders with him before they are all gone. Hurry up.

Work wanted—Any kind of honest labor by steady, industrious man. Married and living in Campbell. Enquire at Press Office.

NOTICE

During the months of Jan. and Feb. we shall close at 6:15 p. m., but will make deliveries up to 5:30 p. m.

THE ROCHDALE CO.

Saloon Men Forcing an Anti-Saloon Reign in Gilroy

It is reported on the streets that the liquor men will not pay the \$600 demanded by the city for the annual license, and by all standing together expect to force the Council to reduce the license. We will give the liquor men this tip—if they carry out this threat they are liable to have a lot of dead stock and fixtures on their hands, as the present council is not one that will be intimidated by such methods. The liquor men may not know that one man has offered \$3,000 over what the present licenses bring in, or \$12,000, for the exclusive privilege of running a saloon in Gilroy, while there are three or four others anxious to put up \$3,000 each for the same privilege.

It will be readily seen that the Council is not at the mercy of the saloon men for funds to run the city government, and there is no telling what might happen if they force the issue. Nothing will be gained by such agitation.—Gilroy Advocate.

Oppose Plan of National Health Department

(Berkeley Gazette, Jan. 6, 1911.)
At a meeting of the chamber of commerce last evening the committee appointed to report on the request of the committee of 100 for an endorsement of a national department of health recommended that the proposed law be condemned and the representatives in congress from this state be asked to oppose the measure. The committee recommended the adoption of the following resolution which was passed by the directors:

"Whereas, this chamber of commerce has been requested to approve the proposition to establish a national department of health and after full investigation we find that the establishment of such a department would be an infringement upon the liberties of the people, would create a medical monopoly in the hands of one school of medicine, would promote the propaganda of fear which has been so industriously and designedly promulgated by the medical trust and would place the power of government behind a few germ cranks of the political medic type; therefore, be it

"Resolved, that we heartily condemn the proposition to establish a national department of health and urge our representatives in congress to use their best endeavors to prevent such action."

High School Notes

These are quite "stirring times" for the C. U. H. S. Boys Basketball Team. They are to play two games within twenty-four hours; one tonight and another Saturday afternoon. Tonight they will meet the San Mateo High boys on the San Mateo basketball court. Saturday afternoon they will play the St. Matthews team at Burlingame. The boys who play in the home team are L. Macy, R. Thompson, E. Jones, H. Freyschlag, Rob. Kennedy, M. Currier, and G. Beaver. Mr. Snow will accompany with the boys.

CAMERA OWNERS

If you would like to see a copy of a beautiful, practical, interesting, modern photographic magazine, written and edited with the purpose of teaching all photographers how to use their materials and skill to the best advantage, either for profit or amusement, send us your name on a postcard. Don't forget or delay, but write at once. The three latest numbers will be sent for 25 cents. \$1.50 a year.

ELECTRICIAN AND MECHANIC

is a practical magazine for everyone who wants to learn about electricity, or who uses tools. Its articles tell you how to make flying machines, wireless telegraph apparatus, dynamos, engines, furniture, models, etc. Every number full of valuable shop-kinks, and practical hints, well illustrated. The only magazine of its kind in the world. Send your name on the postcard for a free sample copy. The three latest numbers will be sent for 25 cents. \$1.50 a year.

Sampson Publishing Co
Pope Building, Boston, Mass

Local and Personal

Improvement Club meeting next Monday night at 7:30.

Dr. C. N. Cooper has been quite ill the last few days with the grip.

Born—To Mr. and Mrs. J. H. Gallant, of Sunnyside, Thursday, a boy.

Miss Ruby Crow has taken a position as operator in the Campbell telephone office.

Will E. Wright has been suffering for some time as the result of running a rusty nail through his hand.

The W. C. T. U. will meet with Mrs. Stewart on Wednesday, Jan. 25, at 2:30 o'clock. A full attendance is required.

Judge Farley is improving from a severe attack of the grip. He was able to be up Tuesday for the first time in two weeks.

Read the ad of the Bank of Campbell in this issue regarding their new safe deposit boxes. This new arrangement will be a great convenience to many.

The S. P. Co. will continue the sale of tickets on account of the aviation meet, to San Francisco and San Bruno until Jan. 23, inclusive, at 1½ fare for the round trip.

According to the rain gauge kept by Mr. F. M. Righter, the rainfall of last week measured 8.23 inches. The greatest fall of any twenty-four hours was probably from 8 a. m. Friday, to 8 a. m. Saturday, during which time 5 inches of rain fell.

Grandpa Brown has been nursing a very sore eye since the new year came in. He has been greatly helped in the last week by Dr. T. L. Blanchard. In addition to the other trouble he has a cataract on his eye which has almost destroyed his sight.

The popular and eloquent pastor of Pacific Grove, Rev. Dr. Peebles will preach in the Campbell Congregational Church next Sunday, Jan. 22, both morning and evening. Mr. Atkinson exchanging will preach in the Grove. Jas. Fabinger, leader of C. E. Topic, "The Law of Prayer."

Mrs. L. L. Miracle and her niece, Miss Elva Hoerler of Los Gatos, spent their vacation by taking an ocean voyage from the city to Los Angeles. They returned inland, visiting relatives in Bakersfield, Porterville, Lindsay, and Visalia. The time was spent very pleasantly, and they had a very enjoyable trip.

The Odd Fellow Hall Association held their annual meeting last Wednesday evening. The following board of directors were elected: Wm. Carney, C. Berry, E. C. Merrill, T. L. Sharp, C. Townsend. The board elected Mr. Carney as president, Mr. Berry, secretary and Mr. Merrill, treasurer.

During the high water of last week the Peninsular Railway Company's bridge across the Los Gatos creek, on Campbell avenue, came very near being washed entirely out. All of the piers were driven from under the bridge and the bridge sagged about ten inches, being sustained only by the rails. The water washed back under the track on the west side and came very near letting down the whole structure.

The Campbell Drug store is now under the management of Mr. and Mrs. Olmstead, who were recently in the hardware business at Santa Cruz. The business has been under the direction of Miss Harriet Clark since the departure of Dr. Miner last March. Miss Clark will remain in the store until the first of February. Her plans are not yet announced, but a young lady of her character and business ability will not be long without a good position.

The W. C. T. U. of Campbell have given up their use of the old Campbell Hall building, where they have maintained a coffee club and a ladies' rest room for the last few years. On yesterday the fixtures were moved to Mrs. Poor's barn where they will remain stored until plans for the future are determined. The Union owns the little building on Harrison avenue opposite the cannery, and for the coming fruit season will probably use that building, at least for a ladies' rest and reading room. Whether or not they will conduct a coffee club this next summer has not been decided. During the past this philanthropic movement by the ladies has been much appreciated by the workers in the fruit who have availed themselves of its privileges. The club has also been a financial success. Mrs. Joy has proven to be a very capable business manager, and the good cooking of Mrs. Palmer is well attested by the popularity of the club as a place to eat.

The A. Van der Naillen School

of Practical Civil, Electrical, Mining Engineering

Established 1884.
Occupying their own building, workshop and laboratories. Open all year. Great demand for co-students in all lines. New students should enroll at once. Address: 51st St. and Telegraph Ave., Oakland, Cal.

In Memory of Mrs. J. F. Janes

It has pleased our Heavenly Father to take to His Home above our dearly loved President, Mrs. Julia F. Janes. We feel that as a club, and as individuals, we have met with an irreparable loss. In her death, we have lost one who was untiring in her Christian charity, in her bright and cheerful companionship, and in her intense devotion to duty.

We, as a club, have resolved to try and show our love for her, by a deeper devotedness to the work she was so much interested in, and make this club, of which she was one of the founders, a monument to the life which we so much honored and esteemed.

We would express to the family and friends our sympathy in this, our common bereavement.

The Country Woman's Club of Campbell.

ELLEN R. SMITH,
ELLA L. BEAVER,
LOUISE S. ROBSON.

Fraternal Aid Association Elect Officers

At the regular meeting of the Palm Leaf Council, No. 560 F. A. A., last Saturday evening, the following officers were installed for the ensuing year:

President, J. E. Weisendanger.
Past President, J. D. Sawyer.
Secretary, Mrs. S. J. Brandenburg.
Treasurer, Mrs. M. J. Wilson.
Vice-president, Mrs. E. H. Lancaster.
Chaplain, Mrs. J. E. Weisendanger.
Trustee, H. E. Brandenburg.
Medical Examiner, Dr. T. L. Blanchard.
Observer, A. H. Lantz.
Sentinel, Geo. Speegle.
Guide, Miss Mamie Coupland.
Planist, Miss Ruby Crow.
Installing officer, Mrs. J. A. Campbell.
Escorts, Miss Lois Bohnett, Miss Matie Sawyer, Mrs. Ora Rubell, and Mrs. Jessie Rubell.
Drill guide, Miss Bulah Crow.
Captain, Mrs. M. J. Wilson.
Reporter, C. B. Miracle.

After the installation a sumptuous banquet was served and the usual good time was enjoyed.

Change of the Time Table on Interurban Railway

Winter time table will go into effect on Monday, January 23rd, 1911. Tables may be procured at offices, or from conductors, on and after Saturday, Jan. 21, 1911.

Cars are all heated these winter days.
PENINSULAR RAILWAY COMPANY.

A blue circle around this notice indicates that your subscription has expired. If you wish the paper discontinued please notify us at once. If we do not hear from you it will be understood that you will call soon and leave a dollar.

A blue cross thru this notice means that this is the last issue of the paper that will be mailed you unless a settlement is made. The Postoffice Department forbids the delivery of papers not paid for.

Why Hindoos Don't Go Mad.

Why are there so few lunatic asylums and so small a proportion of insane persons in India? That is a question which many a traveler has wonderingly asked. The Hindoos regulate their lives entirely in accordance with their religion—that is, their working, eating, sleeping, as well as what we usually regard as our "life" in the religious sense of the word. Everything is arranged for them, and they follow the rules now just as they did 2,000 years ago. This constant observance of the same rules for twenty centuries has molded the brains of the race into one shape, as it were, and, although their rites are queer enough, yet there is but an occasional example of that striking deviation from the common which is called insanity in countries inhabited by the white race. They are fatalists, too. With them it is a case of "what is to be will be," carried to the extreme. This has in time given them the power to take all things calmly and so freed them from the anxiety that drives so many white men into the lunatic asylums.

Thought It Was the Monkey's.

A diamond necklace was possessed by Mme. Geoffrey de St. Hilaire, the wife of the famous French naturalist. It was one of the chiefest of her "contaminants," as Hindoo women aptly term their jewels. One day Madame missed her necklace. There was a terrible turmoil in the house, and all the servants down to the foolish fat scullion were suspected, but in turn proved their innocence. At last it was remembered that M. de St. Hilaire had a pet monkey, and on a search being made in the "glory hole" of the quadrangle the precious bauble was discovered hidden away with a white satin shoe, several cigar ends, a pencil case and a decomposed apple. The renowned naturalist calmly observed that he had frequently seen the monkey playing with the necklace. "Why did you not take it from him?" indignantly asked his spouse. "I thought it belonged to him," replied M. de St. Hilaire. He evidently thought there was nothing unnatural in an ape possessing a diamond necklace as his personal property.

A Mammoth Egg

The Press Office has on exhibition a mammoth egg weighing a trifle less than four ounces and measuring the large way 8 inches in circumference and the smaller way 6½ inches. The egg was laid by a Black Minorca hen owned by John Spencer, of Sunnyside. A standard egg weighs twenty-six ounces to the dozen. A dozen of this kind would weigh forty-seven ounces.

Ladies' hair work, working up combings. MRS. A. W. ADAMS, Dillon Ave.

Carpenter work by day or hour, odd jobs. Shop at house on Dillon Ave.
A. W. ADAMS.

One of the important things installed in our new bank building for the use and convenience of our patrons will be a system of modern safe deposit boxes.

Easy of access, strictly private, protected by a strong reinforced burglar proof, fire proof vault, lined by the most modern electrical protection system to be had.

It is our desire to have our patrons to avail themselves of this opportunity of procuring a strong box accessible and convenient at all times.

The rental will be reasonable and within the reach of all. Call and let us place your name on our list.

JOHN F. DUNCAN, Cashier.

Severally subscribed and sworn to by both deponents, the 16th day of January, 1911, before me:

O. CURRY, Notary Public.

COAST HAPS AND MISHAPS OF THE WEEK

Recent Occurrences Along the
Pacific Slope Related
in Brief Items.

Paragraphs Selected With a View
to Giving Busy Readers the
News in a Nutshell.

Stanford University.—Theodore Roosevelt will speak to the Stanford students here on March 26th next.

Sacramento.—A bill appropriating \$200,000 for a new State Printing Office building, and for the purchase of a site, was introduced by March of Sacramento at the Assembly session.

Hayward.—The first green peas grown in open fields this winter in this district were sent to market last week by Garin Bros., who are said to have paid 12½ cents a pound for them from the growers.

Chico.—John Morgan Boyles, a well known pioneer of northern California, died here at the age of 77 years. He was at one time the heaviest tax-payer in Butte county. He had extensive farming interests.

Santa Barbara.—A washout caused by the first heavy rain of the season, dented a Southern Pacific train at Lento, 40 miles north of here. Fourteen cars were wrecked, but no one was injured. All traffic north and south on the coast line was tied up until evening.

Berkeley.—The street carnival to be held in Berkeley on Washington's birthday under the auspices of Berkeley Parlor, Native Sons of the Golden West, will be officially known as the "Golden Bear" Carnival, and has received the hearty endorsement of the Board of Trade and the Merchants' Exchange.

Fresno.—Grapes that had been kept in cold storage for a year were exhibited at a local ice plant by C. W. Mann of the United States Department of Agriculture, who has been conducting storage experiments in this section. The grapes were in perfect condition and were as fresh as when they were picked from the vines.

San Francisco.—Richard O'Driscoll, 50 years old, was killed while returning from the aviation meet at Tanforan. O'Driscoll, in company with a friend, was walking back to San Francisco along the ocean shore, and when near Mussel Rock ventured too near the edge of a steep cliff, lost his balance and fell to the rocks 50 feet below.

San Francisco.—Circulars announcing a reward of \$10,000 for information leading to the identification of parties other than the three men indicted for the Los Angeles Times explosion have been received by Chief of Police John Seymour. For information leading to the arrest of any of the three a reward of \$5000 each is offered.

San Lorenzo.—R. C. Kennedy, a rancher was dangerously wounded by his wife, who, in a fit of temporary insanity, obtained an ax after he had gone to bed and tried to decapitate him. Mrs. Kennedy is being guarded at her home. She has suffered from temporary delusions for years, it is said, but never before did her mania become homicidal.

Oakland.—William Schoenfeld, who, in company with Israel Liever and Arthur Nagel, attempted to burn their store on East Fourteenth, in the hope that the insurance covering it could be collected, pleaded guilty to arson before Judge Waste, thereby exonerating his wife, son and two daughters, who were detained in the city prison on suspicion of complicity.

Sacramento.—The entire town of Esparto, in Yolo county, has just passed from the hands of several owners into the hands of one man—A. H. Fredson. The sale is, perhaps, the most unique that has ever been transacted in northern California. It includes the hotel, store building, about two-thirds of the other buildings in the town and considerable land adjoining the place.

San Bernardino.—According to a copy of the rain records of the Franciscan fathers kept at the Santa Barbara mission, the winter of 1791, 120 years ago, was a positively rainless winter. A copy of this record was obtained many years ago by Perris from J. J. O'Keefe, O. S. F., of the mission San Luis Rey, who made a special trip to the mission at Santa Barbara to examine these old records.

MAN ON FERRY BOAT KILLED BY EXPLOSION IN POCKET

Mining Engineer is Killed Instantly and
Another Man Fatally Injured.

Oakland.—An explosion due to some high explosive accidentally discharged in the pocket of John O. Norbom, a mining engineer, residing in Berkeley, at 5:50 o'clock last Friday evening caused the immediate death of Norbom and the injuring of two others severely and two slightly. A panic started after the explosion, but the prompt work of railroad officers and officers of the ferryboat quelled this, and the crowds of alarmed people were soon quieted.

The explosion took place in the men's lavatory. It blew Norbom from the seaward side diagonally up in the air and against the beam over the doorway, where he struck with tremendous force and fell, a mangled and unrecognizable heap, on Dr. Royal Sampson, who was in the act of leaving the place, and had the door partly opened when the explosion occurred. The other three occupants of the place clambered over the dead body and made their escape through the wrecked entrance. The right arm of Sampson was badly lacerated and the bones were broken in several places, partly by the weight of the body that fell on him and partly by the force of the explosion.

Edward Hoffschneider of Seventy-eighth avenue, Elmhurst suffered internal injuries that are thought will prove fatal, but was able to run from that place, and Captain W. T. Shorey of Oakland and A. C. Miller, also of Oakland, escaped with nothing worse than a severe shock, the former being temporarily deafened by the explosion.

Snow Carnival at Truckee.

Truckee.—The snowstorm which started three days ago still rages with increased fury and the snow is now three feet deep on the level and four feet on the hills. The snow carnival committee, which was somewhat deterred at the long continued summer weather, is jubilant at the promise of plenty of snow for the snow carnival. The committee is giving the finishing touches to the toboggan slide and getting the toboggans and skis ready for the visitors. An engine house has been built to house the engine used to haul the endless cable, 1000 feet long, which will pull the toboggans up the hill. Everything is almost ready for the week end excursions and the committee has received many inquiries from all over the State from persons who wish to come up.

"Bear" Flag the Official Flag.

Sacramento.—The "Bear" flag is to be the official State flag of California, if a measure introduced in the Senate by Senator Holohan becomes a law. The State at present has no emblem apart from the national flag, and Holohan believes that the old-time flag of the California republic with the bear and the star should be adopted. The bill provides for the length of the flag in proportion to its width, a white field with a single red star in the upper left hand corner and a grizzly bear walking upon a grassy plain in the center with "California Republic" beneath.

Skirts Below the Knees.

Topeka, Kan.—A bill was introduced in the House of Representatives by Representative Cones of Meade county to prohibit the wearing of tight on the stage or in public by any woman. It provides that the skirts of all women who appear in public must not be less than four inches below the knees.

To Divorce Her Ninth Husband.

Portland, Or.—Mrs. Ellen Changrow, a wealthy Indian woman of the Umatilla reservation, is suing Nicholas Changrow, her ninth husband, for divorce. She was divorced from seven husbands, one of her husbands committed suicide, and she now desires to be legally separated from the ninth.

Total Wreck on Santa Fe.

Fresno.—Fireman Jacob Brook is dead and Engineer Levi Stokes is fatally injured as the result of a derailment of Santa Fe local No. 5 bound for San Francisco. The wreck occurred about 100 yards north of the San Joaquin river, in Madera county.

Censorship on News.

New York.—The Brazilian Government is maintaining a strict censorship on the transmission of all news relating to the sudden deaths of 45 sailors who were concerned in the recent mutinous outbreaks at Rio Janeiro.

Carried to Sea on Ice.

Astrakhan, Russia.—Eighty-five fishermen were carried out into the Caspian Sea on an ice floe. A steamship requisitioned at Baku was sent to the rescue, but the chance that any of the men will escape death are poor.

Subjects of National Interest Now Under Discussion

Washington.—President Taft has sent to Congress a special message urging the fortification of the Panama canal and recommending that an appropriation of \$5,000,000 for the initiation of the work on the proposed defenses be made at the present session of Congress. He forwarded with the message the report of the special army and navy board, recommending fortification of the canal.

"The canal, when completed," said the President in his message, "will afford the only convenient route for water communication between the Atlantic and Pacific coasts and virtually will be a part of the coast line of the United States. Its assured possession and control will contribute to our peace, safety and prosperity as a nation."

"In my judgment is the right and the duty of the United States to fortify and make capable of defense the work that will bear so vital a relation to its welfare and that is being created solely by it and at an expenditure of enormous sums."

"I have authorized the submission to the Secretary of the Treasury of the revised estimate for the appropriation referred to in the accompanying letter of the Secretary of war, which estimate is less than the original estimate by approximately one-third."

The House passed the Sulloway general pension bill, which grants pensions ranging from \$12 to \$36 a month to all soldiers who served 90 days in the United States army in the Civil war or 60 days in the Mexican war and who

have reached the age of 62 years. The bill adds about \$45,000,000 a year to the pension roll.

A report of the Judiciary Committee recommending the submission of an amendment to the constitution providing for the direct election of Senators was introduced in the Senate by Senator Clark of Wyoming. Clark is chairman of the Judiciary Committee.

Settlers on the public lands who may be compelled by law to enter upon their claims during the early months of this year are to be given until May 15th to make settlement. The House Committee on Public Lands approved the bill that already has passed the Senate granting such permission.

Secretary of State Knox, for the United States, and Juan Paredes, for the Republic of Honduras, are the signers of a convention of treaty, whereby American bankers make the southern republic a loan of \$10,000,000, to be secured by the customs receipts of Honduras.

Forest lands aggregating 563,331 acres have been eliminated from the Ozark national forests in Arkansas by proclamation of the President. This is in line with the plan of the Department of Agriculture to correct all national forest boundaries.

Actuated by the determination that those responsible for the execution of the Americans, Cannon and Groce, during the Nicaraguan revolution shall be prosecuted, the State Department asked Consul Moffatt at Managua for a report on the situation.

Urgent Need of Law to Stop Influx of Criminals

New York.—A great host of accomplished European anarchists and criminals is shortly coming to this country to join the thugs, yeggmen and Black Handers who already enjoy American hospitality, according to Andrew D. White, former president of Cornell University and ex-minister to Russia and Germany.

In a statement to the press, Dr. White urges the immediate passage of laws to bar from the shores of the United States the flood of undesirable, who, he declares, will hasten hither as soon as England expels them. He says:

"The assassin and the anarchist whom London plans to be well rid of soon, have an admirable refuge in the United States—a country lying wide open to them, in which they will find more companions, sympathizers and effective helpers than in any other, namely, our own."

"Our nation affords them the happiest of happy hunting grounds. Events in New York, in Los Angeles, in Chicago and other cities prove this."

"This nation, with its carelessness in admitting foreign criminals, its ineffective ways of dealing with them, and its facilities for claring them of

guilt, is becoming more and more attractive for them every day."

"In the United States the number of murders during the year just closed was 8897, an increase of 900 over the year preceding. Only one in eighty-six was capitally punished. The number of murders in the United States is to the number in England 116 to 6."

"In sundry murder trials the statement was frequently made that our administration of criminal justice as regards murder has become a farce. These trials were, by most of those who conducted them, and indeed by the public at large, evidently considered not as efforts to secure justice, but simply as games, and mostly between pettifoggers, and the judges appearing much like umpires at games of football."

"The men whom we glorify in our courts are the men who can clear murderers in spite of undoubted evidence of guilt. The prosecuting attorneys are largely chosen from among those of least experience in the legal profession, and are in many ways absurdly handicapped. Naturally, then, the criminal class is becoming in many parts of our country a body somewhat favored by politicians."

Noted Lawyers Assert Will of Mrs. Eddy Invalid

Concord, N. H.—The residuary clause in the will of Mrs. Mary Baker G. Eddy, founder of the Christian Science Church, is null and void, in the opinion of former United States Senator William E. Chandler, Hannis Taylor, and others, according to a statement given out for publication.

The clause in question provides a gift of \$2,000,000 to the First Church of Christ, Scientist, of Boston, known as the "Mother Church." A statute of New Hampshire, prohibiting a bequest to a church of more than \$5000 annually, and one of Massachusetts forbidding more than \$2000 annually, form

the basis of the opinion, which was written by Professor Taylor, formerly Minister to Spain. Declaring the residuary clause "null and void," the opinion says: "As to the void gift, the testatrix died intestate and its subject matter passed on her death to her next of kin, under the New Hampshire statute of distribution."

In the closing paragraph the opinion advises the attorneys for the next of kin that such agreements and contracts as they made with the testatrix and her trustees in her lifetime bind them only "to recognize as valid only such provisions of her last will as are legally valid."

Robberies of Registered Mail Baffle the Detectives

San Francisco.—Postoffice inspectors and railroad detectives have redoubled their efforts to uncover the identity of the thieves who stole the four sacks of registered mail. Except for the finding of a few more torn letters and packages on the Oakland mole, augmenting the previous find of burned mail pouches and letters, the work of the police was futile. Despite the fact that the robbers rifled the mail bags within 500 feet of passing trains, using the lights of the coaches to carry on their work, the detectives have been

unable to locate any one who saw them. Among the torn letters and packages were several from the Anglo-California bank and a number addressed to Weaverville. It is probable that a reward will be offered by the Government for information which will lead to the capture of the robbers.

For a time the postoffice inspectors thought they had another mail theft on their hands when a report was made that a sack had been stolen from a collector's wagon. This was cleared up a few hours later when the pouch was found misplaced in the postoffice.

JOHN D. WORKS IS ELECTED UNITED STATES SENATOR

"Independent of Any Denomination,
Control or Influence of Any Man."

Sacramento.—John D. Works of Los Angeles, former Associate Justice of the Supreme Court of California, was elected United States Senator on the first ballot over A. G. Spalding of San Diego. The vote in the Assembly stood, Works 62, Spalding 16, Meserve 1. The number necessary to elect on joint ballot is 61. At the time the result of the Assembly vote was announced in the Senate the upper House had not voted. The Senate vote, however, was merely perfunctory, the Assembly having itself elected Works.

The vote in the Senate was, Works 30, Spalding 5, Baker 3, Kent 1.

The Senator-elect appeared before the Legislature and made a short address in which he declared himself in favor of the election of United States Senators by direct vote of the people; the conservation of national resources; a Government-owned line of steamers on the Pacific Coast; the referendum and recall, and the granting of the right of suffrage to women.

Upon the opening of the joint session, the clerk of the Senate and the House read the records of the journal showing Works' election. He was then formally declared Senator by Lieutenant-Governor Wallace, amid great enthusiasm.

Sea Prince in Shoal Water.

San Francisco.—Rough weather on the bay within the last few days has interfered with the raising of the tug Sea Prince, which has been dragged into shoal waters off Angel Island, 200 yards from where she was sunk in a collision with the British steamer Grey-stoke Castle nearly two months ago, when four of the tug's crew were lost. The house of the tug is about seven feet below surface. As soon as the weather settles three barges will be used by the Whitelaw Wrecking Company in raising her. It is thought that the bodies of her crew will be found entangled in her wreckage.

Wages Fixed for Three Years.

San Francisco.—At a conference between representatives of the California Metal Trades Association and the Iron Trades Council of San Francisco an agreement was entered into whereby 8000 iron workers employed in San Francisco and Alameda counties, Sacramento, San Jose and the State of Nevada are assured that there will be no reduction in wages for the next three years and are granted the eight-hour day until November 9, 1911, when a conference shall be called to equalize the hours of labor in the metal trades industry in Washington, Oregon and California.

Considering State Highways.

Willows.—The sentiment of delegates from five northern California counties, who have concluded a meeting here, was unanimous for a State highway up the west side of the valley, connecting the principal towns. The convention declared for a road across the tules from Sacramento to either Davis or Woodland, thence north through the larger towns to Red Bluff.

High School at Chico Burns.

Chico.—The Chico Union High School and its contents were destroyed last week by a fire of unknown origin. W. M. Mackay, principal, tried to enter the blazing building to save some of the records, and after being driven back twice by the flames, was prevented from making a third attempt.

Wholesale Merchants' Excursion.

San Francisco.—The "special wholesale trade extension excursion" into the northern San Joaquin valley, planned by the Merchants' Association for Wednesday, March 1st, promises to be a huge success. Though the accommodations are limited to 100, they are being exhausted.

Another Carnegie Gift.

Los Angeles.—Andrew Carnegie has donated \$25,000 to the University of southern California. This gift, plus the \$75,000 raised by the university itself in compliance with the terms of the iron master's donations, wipes out the debt of the institution.

Assessed Valuation of Wires.

Caron, Nev.—The State Board of Assessors at a meeting here placed an assessment valuation against the Western Union Telegraph Company of \$40 per mile for each strand of wire operated by that company in the State.

Negro Defies Posse.

Chicago.—Armed with a rifle, John Wright, colored, held half a dozen policemen at bay for an hour, and not until he ran out of ammunition was he taken from his "fort," a barn in South Park avenue.

FREE ADVICE TO WOMEN

Women suffering from any form of illness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

The Mexican flag, whose colors are white, green and red, representing religious purity, unity and independence, had its origin in what are styled the "three guarantees," which were the principal clauses of the "Plan of Iguala," published February 24, 1820, by Agustin de Iturbide, afterward Emperor of Mexico.

Keynote of the Day.

Breakfast is the keynote of the day. When well and duly set, at the right moment, with the right surroundings and the details in similar accord, it influences the mood, the energies, the capacity, and the results of man's labor to which he goeth forth.

Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Use the World over to Cure a Cold in One Day. 25c.

Good Market for Spanish Grapes. The United States consumes over \$1,000,000 worth of Spanish grapes annually.

Including the entire continent, the population of Europe averages slightly less than 107 persons per square mile.

Your Old Pipe.

When your old pipe becomes too strong you may easily remedy it by boiling it in milk for several hours, then giving it to the janitor.—Chicago Post.

HERE IS RELIEF FOR WOMEN. If you have pain in the back, Urinary, Bladder or Kidney trouble, and want a certain, pleasant, herb cure for woman's ills, try Mother Gray's AUSTRIAN-LEAF. It is a safe and never-failing remedy. At Druggists or by mail 30 cents. Sample package FREE. Address the Mother Gray Co., Le Roy, N. Y.

One View of Marriage.

Judging from the number of divorces granted in this country, some people seem to regard marriage as they do vaccination—as something that doesn't always take.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Eager for an Education. A Poltava, south Russia, paper recently published an advertisement from a Jew who offered to pay the fees at a local gymnasium of three Christian children. The reason for the offer is obvious. By the admission of the three Christians an extra place, under the percentage form, would be provided for a Jew, and the advertiser hoped by this desperate means to secure the admission of his son.

Wise Direction of Life.

An hour every day withdrawn from frivolous pursuits would, if properly employed, enable a person of ordinary capacity, to go far toward mastering a science.—Samuel Smiles.

When Merit Ceases.

All merit ceases the moment we perform an act for the sake of its consequences.—Humboldt.

**MUNYON'S
PAW-PAW
LIVER PILLS**

I want any person who suffers with biliousness, constipation, indigestion or any liver or blood ailment, to try my Paw-Paw Liver Pills. I guarantee they will purify the blood and put the liver and stomach into a healthful condition and will positively cure biliousness and constipation, or I will refund your money. —MUNYON.

Terrible Suffering

Eczema All Over Baby's Body.
"When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Baring, Maine.
Hood's Sarsaparilla cures blood diseases and builds up the system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

Be Wise in Selecting Friends.
Every young man is the better for cherishing strong friendships with the wise and good; and he whose soul is knit to one or more chosen associates with whom he can sympathize in right aims and feelings, is thereby the better armed against temptation and confirmed in paths of virtue.—Collyer.

Few Forest Fires in Saxony.
Although one-fourth of the area of Saxony is wooded the kingdom seldom has a serious forest fire because of the vigilance of the foresters and rigid laws for the prevention of such fires.

HOW TO SUCCEED

Depends Entirely on Superior Merit and Knowledge

During the last few years, conditions in all lines of business, even professional life, have changed so completely that every man is waking up to the fact that in order to win success he must specialize and learn to do some one thing and do it well.
So it is with any article that is sold to the people. If it must have genuine merit or no amount of advertising will maintain the demand for the article. For many years we have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy. From the very beginning the proprietors had so much confidence in it that they invited every one to test it, free of cost, before purchasing.
It is a physician's prescription. They have on file thousands of letters received from former sufferers who are now enjoying good health as a result of its use.
However, if you wish first to try a sample bottle, address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. They will gladly forward you a sample bottle by mail, absolutely free.
Sold at druggists' in bottles of two sizes—fifty-cents and one-dollar.

PISO'S
IS THE NAME OF THE BEST MEDICINE FOR COUGHS & COLDS

SAUSAGE MAKING IS ANCIENT

Industry Dates Back to the Tenth Century and Was Formerly Considered a Queen's Recreation.

Hail to the sausage! exclaims the Mobile Register. The luscious fruit of a combination of pork, spices and meat chopper is now celebrating its one thousandth birthday. And in Austria and Germany happy folks are singing:
We're happy and contented when wine and music flow,
For sausage was invented a thousand years ago!

It was in the tenth century that the tasty pork sausage was given to a deserving humanity, and it was not until 600 years later that Germany began introducing spices into the sausage, which immediately gave the product of that country a world-wide reputation that time can never erase.
A few years ago a sausage exhibition was held in Switzerland and over 1,700 varieties of sausages were on view—more than half coming from Germany.

Making sausages was in the good old days of long ago a queen's recreation. A wife's ability to make good sausages counted for more than wealth and beauty combined.

To appreciate sausages one must have been born and reared "back on the farm" where dad was getting the winter's meat ready on "butchering" day—each day of days to the "bare-footed boy" on the farm!

No, you can't get those sausages at the corner butcher shop. There is only one place where you can get them, and that is "back on the farm."

Welsh Loyalty.
They tell a story in Oneida county, says the Buffalo Courier, to illustrate Welsh loyalty, of two Welshmen coming across to make their fortunes in the new land. They had many friends in Remsen, that Welsh stronghold north of Utica. Already they were enthusiastic and loyal because of the pictures pinned in the letters which encouraged them to come to America. As they entered the bay the Greater City of New York stretched out before them. "That must surely be Remsen," said one. "No," spoke the other. "That's New York." The first speaker looked long and hard. There was awe in his voice when he replied: "Well, then, and what must Remsen be?"

Mostly Hall.
A New Yorker bought one of those fine old colonial places down in Virginia, principally on account of the glowing description of the real estate agent and on information from friends. When he went down to see his mansion he was much impressed by the great pillars, the spacious porch, and particularly the great hall running from the front to the back of the house.

He inspected the place and came back to New York.

"What shall you name it?" he was asked.

"I think," he replied, "I shall call it 'Mostly Hall.'—Saturday Evening Post.

Live Long Without Food.
Carlin eating birds, such as the eagle and vulture, are able to live a long time without food, while some species of sea birds have been known to go without food as long as 24 days. Certain species of birds, living on their own fat, have been known to exist for two months without a morsel of food. From these facts naturalists have drawn the conclusion that all the famine-proof birds have a distinct advantage over the weaker varieties in the race for life in the wild.

Drawing It Strong.
A Baltimore man tells of an address made to some school children in that city by a member of the board of trustees. "My young friends," said the speaker, "let me urge upon you the necessity of not only reading good books, but also of owning them, so that you may have access to them at all times. Why, when I was a young man, I used frequently to work all night to earn money to buy books, and then get up before daylight to read them."

First Printed Book.
The first book printed with type, according to Pettigrew, with the Latin Bible, published by John Gutenberg, at Layence, about 1455; but Haydn is inclined to assign a somewhat later date to this, by making the Book of Psalms, by Faust and Scheffer, printed on August 14, 1457, the first book.

His Light Sentence.
Clothes wringer repairer of Massachusetts gets ten months in jail for stealing a kiss from a woman seventy years old. Presume the light sentence was due to the fact that capital punishment is unpopular in Massachusetts.

Novel Reading and Intellect.
"One who reads all the new novels can't be said to have literary taste," says the Philosopher of Folly. "You might as well boast that you had an intellectual feast when you had calves' brains for supper."

Why She Sues.
In Pittsburg, a woman is suing for divorce because her husband has not had a bath for six months. Pittsburg is a particularly bad place in which to go unperfumed for so long.

Not Always the Case.
The man that tells his wife everything he knows doesn't know much.—Exchange.

The Cough of Consumption

Your doctor will tell you that fresh air and good food are the real cures for consumption. But often the cough is very hard. Hence, we suggest that you ask your doctor about your taking Ayer's Cherry Pectoral. It controls the tickling, quiets the cough.

We publish our formulas
We banish alcohol
from our medicines
We urge you to
consult your
doctor
Ayer's

One of Ayer's Pills at bedtime will cause an increased flow of bile, and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime.

Made by the J. C. Ayer Co., Lowell, Mass.

Only Real Security.
Irresistible power and great wealth may up to a certain point give us security, but the security of men in general depends upon the tranquillity of their souls and their freedom from ambition.—Epictetus.

The French Hospital Training School
for Nurses, San Francisco, will accept new pupils for three year course leading to diploma. For information address Miss M. W. Heaney, Matron

Dignity of Labor.
There is no hope for any race until it has learnt the fundamental lesson that all forms of labor are dignified and all forms of idleness a disgrace.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Sugar-coated tiny granules.

The Difference.
The principal difference between a genius and a fool is that the genius is able to get people to take up his ideas and make fortunes out of them.

TRY MURINE EYE REMEDY
for Red, Weak, Watery, Watery Eyes and Granulated Eyelids. Murine Doesn't Smart—Soothes Eye Pain. Druggists Sell Murine Eye Remedy, Liquid, 25c. 50c. \$1.00. Murine Eye Salve in Aseptic Tubes, 25c. \$1.00. Eye Books and Eye Advice Free by Mail. Murine Eye Remedy Co., Chicago.

Eel Shut Off Water Supply.
The water supply to the Carnegie baths, Dunfermline, was cut off for some hours recently owing to an eel, measuring over three feet, having become wedged in a pipe.

BEAUTIFUL POST CARDS FREE.
Send 2c stamp for five samples of our very best Gold Embossed Birthday, Flower and Good Luck Post Cards. Beautiful colors and loveliest designs. Art Post Card Club, 740 Jackson St., Topeka, Kansas.

Dispute Over a Scale.
The money question has disrupted a Brooklyn church choir. The members can't agree on the scale which begins and ends with dough.

Piles Cured in 6 to 14 Days.
Your druggist will refund money if PAZOINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

Good Idea for Hot Weather.
It is a Kansas woman who has a patent on a fan provided with a sheet of absorbent material to hold water to cool the air which it agitates.

A.A.A. PLUMBING MATERIAL—CUT PRICES.
We are not in the trust and sell anyone: Bath \$10, Sink \$2, Basin \$5. Everything in Plumbing goods at cut rates, prices lowest in town. C. P. Plumbing Material Supply Co., Inc., 329 to 333 McAllister St., near Larkin. Phone Market 4083

Truly Ethereal.
As a New York man came from under an anesthetic, he exclaimed, "This is heaven." Curious, the effect ether has on a chad.

Kismet.
Destiny, or fate, is but the divine law under the divine control.—Zse-hokke.

Liberty and Law.
The highest liberty is in harmony with the highest law.—Giles.

Your Appetite Easily Restored

and regulated if your will only begin your meals with a dose of Hostetter's Stomach Bitters. Loss of Appetite is a sure sign of some disturbance of the stomach and bowels, which the Bitters will quickly correct. Therefore, try it this very day. For over 57 years it has been assisting those who suffered from Indigestion, Dyspepsia, Costiveness, Colds, Grippe and Malaria, and it will do you good, too. Insist on having Hostetter's.

A WORLD-WIDE TOURIST.

"The California prune is the greatest tourist in the world," remarked Brown, sitting at the family breakfast table and glancing enviously at his valise all covered with plaisters of European hotels and steamship lines.

"California prunes were on the menu cards of the dining cars from Oakland Pier to New York, on the cards of all the leading hotels of Chicago, Washington, and New York. I had them every morning for breakfast on the big ocean liner all the way across the Atlantic, and when I breakfasted at the Cecil in London, the first and most conspicuous thing on the bill of fare was 'California Prunes.'"

"California prunes in London!" ejaculated Mrs. Brown with surprise. "How on earth do you suppose they got there? Why that is almost one-third of the distance around the world."

"Yes, its a long distance from here, and moreover you may get a dish of them in London as cheaply as in San Francisco."

"But, my dear, I have heard you say the railroads charge such high rates that the producers couldn't afford to ship stuff further than a woman with a hobble skirt could make in three jumps."

"Yes,—from a mouse."

"You didn't say anything about a mouse."

"Well, I meant to. It makes some difference what a woman is jumping from, at, or about. Bill Jones' wife jumped from a mouse the other day and Bill says she circled the room three times every time she jumped."

"But there is a 7000-mile gap between London and San Francisco."

"Perhaps my comparison was rather ridiculous. When I was a boy and anything went wrong, I whipped my dog. Men are only boys grown tall, and when we grow up, instead of whipping the dog, we whip the railroads. But I will admit that when I can go 7000 miles away, across the Atlantic, and buy a dish of California prunes for breakfast in London, Berlin, and Paris as cheaply as in San Francisco or Los Angeles, freight rates haven't much to do with the price or cost of an article. I think, perhaps, if the curtain was pulled aside on the fellows who are howling about freight rates, it would be found that they are doing it to cover up something else."

"But you have howled as much as anybody."

"If I didn't, the fellow who paid me a profit of \$7.00 on a suit of clothes would butt in and howl too, but against me. I beat him to it and he is satisfied to hear me cuss the railroads. It's an easy and quick way out of it, you know, and it's a scheme that works fine."

"But is it honest?"

"Please do not discuss a dealer's profits and moral ethics at the same time. They don't blend well."

"But honesty is the best policy."

"See here, give me something from Bacon, or Shakespeare, or Bill Nye, but don't spring something that somebody said or concluded after he got caught. Besides you are leading me away from the original subject. I was talking about California prunes and what I wanted to remark was that as world-wide tourists and globe trotters they take the blue ribbon."

CLOSING OUT

500,000 rolls of fine Wall Paper at 3 cents per roll and up. Paint \$1 per gallon. Write for free samples of wall paper and color card of paints. J. L. Ash, 473 McAllister street, San Francisco. Mention this paper.

Uncle Eben.
"De quarrelsome man," said Uncle Eben, "is likely to make slow progress. You doesn' git forward by dealin' in back talk."

Good for Sore Eyes.
For over 100 years PETTIT'S EYE SALVE has positively cured eye diseases everywhere. All druggists or Howard Bros., Buffalo, N. Y.

Something of a Joke.
A good example of the kind of story Mark Twain used to like to weave into his after-dinner speeches was the tale of the drinker who unwillingly put in an application for membership in a temperance society, sailed the next day on a three years' voyage, on which he kept the pledge in spite of longing and temptation, and returned to resign only to find that his name had been blackballed originally.—Buffalo Commercial.

When Trees Boogie Scarce.
Mr. Woodpecker (tired of flat hunting)—This is the last disappointment I'll stand for, Roxy! I'll drill a hole for myself if I have to tackle an iron trolley pole!—Puck.

Hot-Water Bags.
Do not throw your wornout hot-water bag away, but cut it in round or oval pieces and use them as mats to put under flower pots.

Best Things Worth the Price.
Alcott: The best things are all too cheaply purchased by a lifetime's toil.

French Proverb.
If you have one true friend, think yourself happy.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (Collinsonia Canadensis), Bloodroot (Sanguinaria Canadensis), Golden Seal root (Hydrastis Canadensis), Queen's root (Stillingia Syriatica), Black Cherrybark (Prunus Virginiana), Mandrake root (Podophyllum peltatum), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

W. L. DOUGLAS
UNION MADE \$3, \$3.50 & \$4 SHOES FOR MEN & WOMEN
BOYS' SHOES, \$2.00, \$2.50 AND \$3.00. BEST IN THE WORLD.
If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, the superior workmanship and the high grade leathers used, you would then understand why Dollar for Dollar I Guarantee My Shoes to hold their shape, look and fit better and wear longer than any other \$3.00, \$3.50 or \$4.00 shoes you can buy.
Do you realize that my shoes have been the standard for over 30 years; that I make and sell more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the United States? Yes, I do. My shoes are made in the United States. Quality counts. It has made W. L. Douglas shoes a household word everywhere.
CAUTION! None genuine without W. L. Douglas name and price stamped on the bottom. If your dealer cannot supply you with W. L. Douglas shoes, write for Mail Order Catalog. W. L. DOUGLAS, 145 Spark St., Brockton, Mass.

Memory.
As backward files my memory from manhood's proud estate to when I swung my lover from upon my lady's gate, there rises in my throat a lump that will not get away—a lover's recollection of a little girl named May!

As sweet a little maiden as was ever put on earth, whose freckled face was wrinkled in an ecstasy of mirth; who when she wept was wonderful—entrancing when she sighed! How many thousand times 'd sworn that she should be my bride!

But there's that lump! Ah, me, that lump that will not go away! I've had a photo from the girl I used to know as May. Her name is Mrs. Snuggles-Fritz—she's fat and frowsy, too! She still retains her freckles and her tilted nose is blue!

She writes that seven children is the reckoning to date, and they keep their mother worrying from early morn till late. And, by the way, the lump I've got—it took its form and shape with the gasp of glad thanksgiving for my harrowing escape!

Must War on Insects.

When it is stated on good authority that the people of the United States have suffered from the ravages of insect pests to the extent of about \$700,000,000 in a single year, when the agriculture of the small state of Massachusetts is said to lose nearly \$5,000,000 annually from the attacks of insects, it is time to look about us to see how we can get help in the war against them; it is time to do something to increase the numbers of the creatures that feed upon these insects.

Pictures on Damp Walls.

Take as many corks as are required, cut them in two and pass a short pin through each piece, so that the point protrudes at the other end. Fix one piece on each of the two lower back corners of your picture frames. This prevents the pictures, when hung, from touching the walls and permits a current of air to pass uninterruptedly between, carrying off all damp and moisture that would otherwise be absorbed by the pictures.

Maxims of a Novelist.

"Relations always want to know where you are going and what you are doing—there's nothing so curious as relations." "One gets to know people better in one's thoughts sometimes than when one is with them."—"Sir George's Objection," by Mrs. W. K. Clifford.

The Secret of Health.

A physician informs us that the best cure for sickness is to keep well. Some say or other this had long been suspected, and it is a joy to have it confirmed by expert authority.

True Living.
Whoever lives true life will live true life.—E. Browning.

THE Famous Rayo Lamp
Once a Rayo user, always one
The Rayo Lamp is a high grade lamp, sold at a low price. There are lamps that cost more, but there is no better lamp made anywhere. Constructed of solid brass; nickel plated—easily kept clean and ornamental to any room in any house. There is nothing known to the art of lamp-making that can add to the value of the RAYO Lamp as a lighting device. Every dealer everywhere. If not at yours, write for descriptive circular to the nearest agency of the
STANDARD OIL COMPANY (Incorporated)

GRAIN BAGS!
The State Board of Prison Directors have set the price of San Quentin bags at \$5.70 per hundred. Farmers and consumers have until April 1, 1911, to file their applications of purchase at this price. Blank forms will be furnished by the Warden at San Quentin on application for the same.
JOHN E. HOYLE, Warden
San Quentin, December 30, 1910

SOCIETIES.

Senator Walker Introduces Bill That May Help Los Gatos Problem

Senator Geo. S. Walker of this district has introduced a bill in the senate which provides that in the event of the inability of town trustees fill a vacancy on the board, such vacancy shall be filled by an election. This measure, it is claimed, is for the express purpose of helping municipalities out of dilemmas such as exist in Los Gatos at the present time. If this bill passes both houses and is approved by Governor Johnson, an election shall be had to fill the vacancy occasioned by the death of D. P. Simons last September. Mail.

It appears to an outsider that when a man occupying a position of public trust, elected by the people, dies, the right to appoint his successor should be in the hands of the people. In this case especially where so much prejudice and ill-feeling exists among the other members of the board the people should be consulted. Those members of the Los Gatos town board who represent the "wet" element of the town, have lost so much of their support since taking office that they are not willing to allow the question of the election of a successor to Mr. Simons to be decided by the townspeople.

A Pleasant and Prosperous Year

Just one year ago the present editor assumed management of the Interurban Press. We are pleased to state to our patrons that it has been a year of pleasant associations, and at the same time a year of hard work. We do not regret the work as it has been attended by a constantly growing business and increased encouragement for the future. The people of Campbell have responded very generously to our solicitations for business patronage. We feel that we have made many friends and few enemies. If there has been any improvement in the paper, you, of course, are aware of it. To those who have not visited the office, we might say there has been much improvement on the inside. We have added thirteen fonts of select, new job type besides new body type, a mailing machine, punching machine, wire stitche, paper cutter and typewriter; also numerous other articles that facilitate work. We are now dreaming dreams and seeing visions of the time when we will have a cylinder press and an "all-at-home print," with double the circulation and a much increased advertising patronage.

Press Office Will Move Again

During the past few months we have been congratulating ourselves on having pleasant quarters with plenty of room and good light, a place where we could continue to grow and add to the business. When we rented from I. O. O. F. Hall Association last August they very generously gave us a low rent with the understanding that we would become a steady tenant, but we failed to ask for a lease until we had moved in and gone to an expense of forty or fifty dollars for new fixtures, etc., at which time they were unwilling to lease the rooms. Now we are informed that Dr. Miner, after his wanderings of the past ten months, has decided to locate in Campbell again. Furthermore, the hall board has seen fit to give Mr. Miner a lease on the two store rooms, which means that the Press office will need to seek a new location. While we are satisfied with the reasons the board gives for such an action, nevertheless, it is an injustice and will work a hardship on us.

Our future plans are too indefinite to announce at this time.

A Local Option Law Introduced in the Legislature

Much interest has been manifested throughout the state in the Local Option law which was introduced in the Assembly by Mr. Wyllie, of Dinuba. The Committee of Public Morals has set the evening of Tuesday, Jan. 24th, as the time for hearing on this measure. A similar bill will be introduced in the Senate by Senator Estudillo in a few days. The measure seems to be meeting with pretty general approval among the legislators and the prospect for its passage is good.

The proposed bill provides for the local option of all districts of the state, both in and outside of cities. The bill provides that on petition of 25 per cent of the voters of a section a special election shall be held to vote on local option for the section. The results of that election will remain in force for two years, after which it may be again voted on, on petition of the voters.

A copy of Assembly Bill, No. 37, can be seen at this office.

There might have been a meeting of the Improvement Club last Monday evening had there been a few more members there besides the president and secretary. We are not in the least discouraged, however; especially since learning that the Los Gatos Board of Trade held an annual meeting last week at which the president, secretary and Mail reporter were in attendance. We might suggest to our neighbors up in the hills that they announce a dollar banquet for four bits and they will have no difficulty in getting a good crowd out to their annual meetings. Next week we will warm over some of the crumbs from the table of our recent yearly banquet.

The editors of the county have accepted an invitation from the Sunnyvale Chamber of Commerce to be the guests of that boosting organization on next Tuesday. Sunnyvale has one live factories and consequently some other things which they bring into a community, namely—money. The Press editor was raised in a manufacturing town in the East and therefore we look forward with no little pleasure to hearing the bells and whistles at the noon hour next Tuesday.

L. D. Bohnett has been appointed on the following Committees in the Assembly: Reapportionment (chairman); Conservation; Election Laws; Education; Federal Relations; Judiciary; Reform of the Civil Service; Revenue and Taxation; State Library; Universities.

The Bank of Campbell this week publishes their quarterly statement of the condition of their business. Comparing the report with that of other banks of the county we find that the local bank makes a good showing.

Our good friend L. B. Malory, of Los Gatos, occupies the position of Chief Clerk of the Assembly. He is surely a good man for the position and will be a credit to the work.

INFLUENCE OF ODORS.

Agreeable Scents May Aid the Process of Digestion.

Sweet scents to aid digestion are an importation from the orient. The influence of odors is exceedingly marked. Some people cannot remain where lilies are in full bloom or bear the odor of jasmine. Some are given a headache by heliotrope or tuberose. Some are nauseated even by roses. Attacks of real illness with long trains of digestive disorders following in their wake may be brought on by odors.

The fact can be explained only as a pathological phenomenon, says Dr. George M. Niles, exerting its influence on the most vulnerable point in the human economy, the gastro intestinal tract. As offending scents may set in motion a train of morbid digestive symptoms, so, on the contrary, those that are sweet and agreeable may exercise a highly beneficial effect. The orientals have developed to a notable degree the faculty of deriving the most enjoyment from inhaling fragrant odors.

The most beautiful creations pictured in the imagination of Mohammedans are the bours represented in the Koran as nymphs of paradise, formed of musk, who exhale from their lovely bodies entrancing perfumes. It is the custom of many eastern peoples to spend after each meal a season of quiet while the air around them is rendered fragrant by a fine mist, or a bottle of their favorite perfume is constantly inhaled. Even the poor indulge in this habit, for all feel that it benefits nerves and digestion. Dr. Niles believes that a psychic state favorable to the digestive process may be induced through the olfactory fully as well as through the other senses.

HASHEESH INTOXICATION.

Peculiar Effects of Indian Hemp Described by a Scientist.

Dr. Czerkis of Vienna, who has undertaken a study of the chemical structure of cannabinol, the active principle of hashesh, or Indian hemp, gives the following graphic description of the peculiar intoxication which hashesh produces: "It is as if the sun illuminated every thought that passes through the brain, and every bodily movement is a source of joy. The hashesh eater does not experience the kind of pleasure which is produced by the gratification of bodily appetites. He feels the joy of one who hears good news, of the miser counting his gold, of the lucky gambler or the successful seeker after fame. He is the sport of every impulse, and the current of his thought is diverted by the slightest impression. A word or a gesture suffices to suggest new images and ideas with marvelous quickness and precision.

"For this reason the oriental hashesh eater before he gives himself up to the enjoyment of the drug takes care to remove from his presence everything that could induce melancholy or any feeling except that of keen delight. For the accomplishment of this object he makes use of every means which the customs of the orient place at his disposal. In his harem, surrounded by his wives, under the spell of soft music and voluptuous dances, he enjoys a delirium in which he feels himself transported to the paradise which the prophet has prepared for him."

Fortifying Manila.

The war department of the United States has been strongly fortifying the islands at the mouth of Manila bay. On El Fraile island a fixed battleship of concrete having two steel turrets has been erected, in each of which turrets are mounted two fourteen-inch guns, which can be trained in any direction by the gun crew inside. The guns are operated by the general fire control station on Corregidor island, where the principal fortifications of the mouth of the bay are located. These fortifications are practically complete and include six twelve-inch, one ten-inch, four six-inch and four three-inch guns. There are also twelve twelve-inch mortars and sufficient equipment for mining the two channels to Manila bay. The artificial ship referred to will be about 100 feet wide and 1,200 feet long.—Scientific American.

Electricity on the Farm.

The introduction of tungsten lamps is doing much to advance the use of electricity on farms. It is possible for the farmer with a small plant, driven either by a gasoline engine or by damming a small stream, to obtain sufficient current to light his house and barn with this economical type of incandescent lamp. The use of electricity on the farm, by the way, is growing, and, as pointed out by the Electrical World, farmers will in time come to consider electricity a necessity. Then it will be found profitable to establish central generating stations for farming districts to take the place of the small individual plants now being installed.

Trinity Bells Modulated.

The famous chimes of Trinity church, New York, were recently overhauled, and one of the 3,000 pound bells was recast to give a better tone. The most interesting feature of the rejuvenation, however, is the installation of a playing apparatus provided with loud and soft pedals. This effort to modulate the expression in chimes playing is said to be unique.

Strengthening Bent Wire.

A crumpled wire may be quickly strengthened by catching one end in a vise and giving the other several hard jerks, using pliers to hold the wire.

\$300 Lot Reduced to \$250

For a quick sale the price of this lot is reduced \$50. Lot 50x150 feet. East front, on South Second street, near Campbell ave.
